EDUCATION

Bachelor of Science: Business Information Systems, 05/2026

Bowie State University - Bowie, MD

PROFESSIONAL SUMMARY

Aspiring Data Analyst with hands-on experience in Power BI, SQL, Excel, and data modeling. Skilled in building dashboards, developing KPIs, and analyzing financial and performance data to support business decision-making. Experienced in cleaning, transforming, and visualizing data to uncover trends and deliver actionable insights. Seeking to leverage data analytics skills to drive efficiency and measurable results.

SKILLS

Technical: Power BI, Excel, SQL, Python, Power Query

Analytics: Data Visualization, KPI Development, Financial Analysis, Trend Analysis

Tools: SharePoint, Smartsheet, Discord

Other: Social Media Analytics, Content Strategy

EXPERIENCE

Intern, 02/2026 - Current

TPJ Solutions Inc. – Gaithersburg, MD

- Designed and structured clean datasets in Excel for financial tracking and reporting
- Developed and tracked financial KPIs (burn rate, budget utilization, revenue trends) across multiple contracts, improving visibility into project performance and cost efficiency
- Built Power BI dashboards to monitor contract performance, enabling stakeholders to track revenue, expenses, and cost-to-complete in real time
- Applied data modeling techniques (relationships, tables, measures) to improve reporting accuracy
- Used Power Query and DAX to clean, transform, and analyze data
- Analyzed financial and operational data to identify trends and provide actionable insights for business decision-making

- Practiced data analysis and visualization aligned with real-world business needs
- Identified patterns in contract spending and revenue trends, helping highlight inefficiencies and opportunities for improved resource allocation

Founder & Data Analyst, 01/2022 - Current

Winners Posse – Remote

- Built and scaled a sports analytics platform generating over \$50,000 in revenue
- Analyzed player performance data and trends to identify high-value opportunities
- Developed daily data-driven strategies using performance metrics and statistical trends
- Tracked and evaluated performance metrics to improve decision-making and overall ROI
- Created and managed a Discord-based platform for content distribution and audience engagement

Substitute Teacher, 09/2022 - Current

MCPS – Rockville, MD

- Implemented lesson plans to provide effective instruction and maintain classroom order.
- Adapted teaching methods to accommodate diverse learning styles and needs of students.
- Collaborated with colleagues to develop engaging educational activities and resources.
- Monitored student progress, providing feedback to enhance academic performance and participation.
- Supported special education teachers by implementing individualized education plans (IEPs) as needed.

ACCOMPLISHMENTS

- Generated over \$50,000 in revenue through data-driven sports analytics platform
- Built and scaled an online analytics community

CERTIFICATIONS

Microsoft Power BI Data Analyst (In Progress)

PROJECTS

Contract Financial Dashboard (Power BI)

- Built an interactive dashboard tracking revenue, monthly spend, and cost-to-complete across contracts
- Developed DAX measures for KPI tracking and financial analysis
- Designed visuals to support business decision-making

Allen Iverson Performance Dashboard (Power BI / Data Visualization)

- Built an interactive dashboard analyzing player performance metrics (points, efficiency, trends over time)
- Designed visualizations to highlight scoring patterns, performance consistency, and game impact
- Transformed raw sports data into clear insights using data modeling and visualization techniques

- Applied dashboard design principles to create an intuitive and user-friendly interface
